DESIGN • BUILD • OPERATE

Dear Neighbour,

We are writing to you to inform you of progress on the new leisure centre.

We are pleased to announce that all the foundations for the new leisure centre have been formed, on time and to the quality and workmanship required by Building control, our engineers and other associated quality assessors. These foundations will form the basis for the steel frame which will be arriving at the very end of this month.

Meantime great strides have been made in forming of the new pool (as you can see in the image below) and it is currently being 'sprayed' with concrete. A process that we have used to great effect on many projects and a process that releases a pool shell that is of the greatest quality and to the very strict tolerances required for modern swimming pools.

Drainage designs have been signed off to allow the installation of the new systems so we can 'make hay whilst the sun shines' and discharge the water when the rains do come!

We are also pleased to inform you that we will be performing a time capsule ceremony early in the next month for the local school.

Please feel free to email us directly on [info@pellikaan.com](mailto:info@pellikaan.com) or call us on 0208 392 9536.

Yours Sincerely,  
Andrew Laslett.
